Zoom
Video Communications

Easy-to-use, high-definition virtual meetings from your desktop, mobile device or conference room.

AARNet provides Zoom licensing to empower educational and research institutions of all shapes and sizes to collaborate, meet, and securely connect across Australia and the rest of the world.

Zoom licensing can enable both staff and students to host meetings for up to 300 participants, up to 1,000 for lectures, and up to 10,000 for webinars and conferences. Zoom integrates with calendars and learning management systems using a simple URL "click to join" function, allowing educators to easily create virtual classrooms that are accessible across a range of devices.

Guests without accounts can easily join meetings at no cost, making Zoom the go-to collaboration platform for educators and researchers across the globe. Meetings can be secured to suit every need from high-profile conferences down to one-to-one private meetings.

Extensive experience with Zoom Rooms, concurrent use capacity, and integration with both Microsoft Teams and traditional conference rooms are just some of the highly-valued extras available via AARNet, one of Australia's most experienced Zoom Partners.

Why Zoom via AARNet?

- **Community of experts**
  Not just a licence, but a community of educators and AV experts collaborating together on behalf of the Australian higher education, school and research sectors.

- **A reliable and robust partner**
  Best practices in education for Zoom from a partner supporting over 5 billion meeting minutes each year.

- **HD video and audio**
  High-quality video conferencing and desktop sharing that just works.

- **Compatible with multiple devices**
  Free Zoom clients available on Windows, macOS, Linux, Chrome OS, iOS, and Android.

- **Host interactive webinars**
  Up to 10,000 participants – all online, in real time, and interacting with polls and Q&A.

- **Caters for large audiences**
  Options to overflow any meeting or webinar to YouTube or FaceBook Live for even larger audiences.

- **Easy to use**
  Simple interface and "click to join" meetings.

- **High-quality training tools**
  Co-annotation, white-boarding tools, feedback, and polling.

- **Meet with anyone**
  No need for guest accounts.

- **Integrated scheduling**
  Works with most calendar systems and existing workflows.

- **Compatible dial-in**
  Voice-only phone and SIP/H323 video conferencing.

- **Seamless access**
  Using single-sign-on (SAML2.0) for your institution.

- **Developer platform**
  Includes integration with learning management systems and hundreds of other apps in the Zoom Marketplace.

- **Feature rich**
  Live transcriptions, closed captions, breakout rooms, virtual backgrounds, reactions, language interpretation, and immersive views.

Solution Provider
ZOOM

Key Features

✅ **AARNet connected**
Leverages the ultra-high-bandwidth and low-latency AARNet network whilst still being accessible from homes and workplaces globally.

✅ **Low data requirement**
Works well at low bandwidth.

✅ **Cloud recording**
Record meetings locally on your computer or to Australian-based cloud storage.

✅ **Zoom Rooms software**
Bring high-quality video, audio and web conferencing to a room of any size (includes scheduling display and digital signage at no additional cost).

✅ **Security management**
Meeting passcode protection, waiting rooms, lock meetings, and host/co-host controls.

✅ **Competitive pricing**
Low-cost annual licensing for education and research institutions.

AARNet can provide expertise and licensing for:

✅ Zoom Meetings

✅ Zoom Events

✅ Zoom Webinars

✅ Zoom Phone

✅ Zoom Rooms

❝ We started our journey with Zoom at the end of 2017 and it's been one of the best things that we've done. In terms of the platform, it's used extensively in all aspects of the University for administrative meetings, research collaboration and in teaching and learning."

Mark Jefferys - Solution Architect, University of Newcastle

About AARNet Cloud Services

AARNet partners with service providers that are willing to customise their offerings to better meet the needs of the research and education community. AARNet has been an Australian-based reseller partner of Zoom since 2013.
